4	Put on your hard hat! We are going to visit a construction site! The crew is getting ready to build a house. But the planning began long before they arrived.					M	S	V	M	S	V
5	The process begins with an architect. This is a person who designs houses. Architects also design other structures, such as airplanes and bridges. Architects do more than plan what a house looks like. They want the houses they design to be safe to live in. And they want them to be strong enough to last a long, long time.					M	S	V	M	S	V
